Subject: PCB CAP draft findings for review
Attachments: Draft PCB CAP Findings for Advisory Committee.docx
Flag: Follow up

Dear Advisory Committee members,

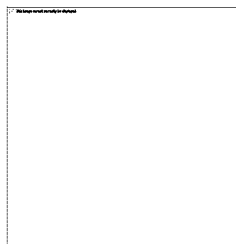

Attached is the draft findings for the PCB Chemical Action Plan. The draft document is just the start of our conversation on how to reduce PCBs in Washington State. It is in the CAP template, but only includes information on what we know about PCBs. It does not draw conclusions, discuss options or make recommendations. Once we are more confident in the facts, we will move forward with options and recommendations to protect human health and the environment.

We've invited all of you to be on the advisory committee because we believe your expertise and perspective are critical to our ability to identify actions that will reduce PCBs entering the environment.

Please review and comment on the draft findings before our first meeting on Dec. 16th. There is more information on the PCB CAP, including the list of advisory committee members, on our website at <http://www.ecy.wa.gov/programs/swfa/pbt/pcb.html>. The purpose of the December 16 meeting is to vet this document that will form the foundation for the actions we recommend. A more detailed agenda will be provided prior to the meeting in December.

Please contact me with any questions. We're sending the draft findings in Word format to make it easier for you to comment on. Unfortunately, the file is very large (14MB). Please contact Beth or I if you have trouble accessing it.

Regards,
Holly

which may be a computer program. This attached computer program could contain a computer virus which could cause harm to EPA's computers, network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced into the EPA network. EPA is deleting all computer program attachments sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you should contact the sender and request that they rename the file name extension and resend the Email with the renamed attachment. After receiving the revised Email, containing the renamed attachment, you can rename the file extension to its correct name.

For further information, please contact the EPA Call Center at (866) 411-4EPA (4372). The TDD number is (866) 489-4900.
